EDUCATION

COOP Careers: Data Analytics Fellow *Expected Dec 2026*

- Completing a 16-week, 200+ hour fellowship in data cleaning, analysis, and visualization using SQL, Python, and Tableau.
- Analyzed 35K+ Chicago Data Portal records in Excel and Tableau, identifying Pulaski (Blue) as the least-safe CTA station at 11x the median crime rate and Sundays as the peak-risk day (+61%).

Revature: Full-Stack Developer Program *Jan 2025 – Jun 2025*

- Completed 400+ hours of full-stack training (Java, Spring Boot, SQL, front-end), building web apps in Agile teams with Git and clean-code practices.

Illinois Institute of Technology: B.S., Computer Science, Chicago, IL *May 2025*

- **Honors:** Dean's List (Fall 2024)

TECHNICAL SKILLS

- **Languages & Frameworks:** Python (FastAPI, Flask, Matplotlib), JavaScript/TypeScript (Next.js, React), Java (Spring Boot), SQL (PostgreSQL), Dart (Flutter), C, R
- **Tools:** Git/GitHub, Docker, REST APIs, Tableau, Excel
- **Certifications:** Google AI Professional Certificate (Google, via Coursera), Oct 2026

PROJECTS

FilmDice: Movie Discovery Web App (GitHub) (Next.js, FastAPI, PostgreSQL, Docker) *Jan 2026 – Present*

- Deployed a full-stack movie discovery web app (FilmDice) searching 1.3M+ TMDB titles with dynamic filters and streaming availability, serving 20+ users with sub-1-second page loads.
- Engineered a weighted preference-learning engine that scores swipes by genre and decade; all 10 testers found a recommended movie they loved within ~2 minutes of initial usage.

Wheelchair Basketball Prototype (CAD, 3D Modeling, Sewing, User Research) *Aug 2024 – Dec 2024*

- Earned Top-3 placement among 20+ teams at Kaplan Institute Innovation Day for a rehab-engineering prototype improving comfort and stability for wheelchair basketball athletes.
- Led interviews with 4 Paralympic athletes, data collection, and the final presentation for a 6-member team.

Advanced Encryption Suite (GitHub) (Python, AES/DES/RSA, CLI) *Aug 2025 – Nov 2025*

- Built a Python CLI implementing AES, DES, and RSA with configurable key sizes, CBC/CFB modes, SHA-256 hashing, and an AES vs. RSA speed benchmark.

WORK EXPERIENCE

Hughes Who Technologies Studio **Chicago, IL**

Instructor *May 2026 – Present*

- Design 5 lesson plans and teach HTML, CSS, JavaScript, Python, and Scratch to 8 classes (100+ students).
- Drive project completion from ~60% to 90%+ through personal, instant-feedback capstone projects.

Allied Universal Security **Chicago, IL**

Security Professional & Front Desk Receptionist *Feb 2025 – Present*

- Manage RFID access control for 100+ daily visitors and 50+ weekly vendors, averaging ~10-second check-ins with zero security breaches on assigned shifts.
- Introduced a timed, first-come-first-served vendor check-in for 150+ events (250–350 attendees), keeping load-in on schedule or up to 20 minutes early with zero vendor complaints.
